Reviews

Manufacturer's Description
JVC's incredibly light, small 1GHz Centrino Mini-note PC for powerful "always on the go, always in control" computing. Weighing just 905g, the Mini-note PC has rewritten the Rule Book when it comes to defining work on the move. Wireless connectivity anywhere there's public wireless LAN service, and up to 9.5-hr extended battery life. Advanced software pre-installed for content creation and enjoyment. You may never go back to your desktop!

★★★★★ **Robust and yet very small**, 16 May 2004

By **A Customer**

I have had my jvc laptop for some 3 months and I still can't believe how powerful it is although it is so portable...favourite features are editing clips with ease and the wi-fi facility. Only negative is that the dvd drive is external with only the option to run it from the mains
