General Information

Ticket ID	#XON-864-61983
Full Name	Roman Czyborra
Email	roman@czyborra.com

Subject: Why can I not find a button to adapt the forwarding targets of my registered domains here?

Subject says it all: Why can I not find a button to adapt the forwarding targets of my registered domains here?

It is very confusing here with all those buttons and menus to find the right one.

http://netsol.com/ is a way bigger rip-off but changing the DNS targets has always been possible. I cannot believe you dont have something similar.

Please tell me I just have to go into this spelled-out deeplink!

Cheers: Roman
